

# EXTREME NANO-TECH FORMULA

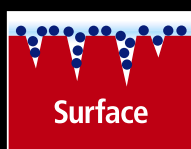

Turtle Wax Extreme Nano-Tech offers benefits beyond traditional car care. Nano sized particles work at a molecular level, cleaning deeper for ultimate cleaning performance and bonding tighter for a smoother more glossy finish. Nano-tech formulas contain specially selected nano materials that are inert (non-reactive) and do not pose any health risks. A nanometre is a billionth of a metre, approximately 1/80000th of the diameter of a human hair. Traditional chemicals use micro scale material, approximately 1/80th the size of a human hair.

Nano-Tech formulas increase the ability of a wax to adhere and spread over the paint surface. Nano-particles increase the contact area of the wax giving a smoother, more closely bonded finish.

Nano-tech formulas work in synergy with detergents and surfactants. Nano particles aid the encapsulation of dirt on the surface, picking up the smallest molecules of dirt and grease. The nano-particles help absorb the dirt into the foam, making cleaning even the dirtiest of surfaces quicker and easier.

## Nano- Technology...

...EXTREME PERFORMANCE!

LATEST TECHNOLOGY IN  
CAR BODY MAINTENANCE

### Extreme Nano-Tech Wash & Wax

- Enhanced cleaning performance - nano-particles penetrate dirt faster
- Nano-particles create a water repellent, glossy film. This reduces drying time and virtually eliminates the need to chamois

500ml 1 Ltr 2.5 Ltr 5 Ltr

### Extreme Nano-Tech Glass Cleaner

- Powerful, nano-enhanced, cleaning action
- For interior and exterior use
- Streak-free finish

500ml

### Extreme Nano-Tech Cockpit & Bumper Clean & Shine

- For all types of automotive plastic, rubber and vinyl interior and exterior trim
- Cleans, conditions and protects
- Nano-tech formula prevents fading, drying and cracking

500ml

### Extreme Nano-Tech Wax for Wheels

- Provides a durable glossy barrier
- Reduces the adhesion of brake dust
- Reduces future cleaning time

500ml

### Extreme Nano-Tech Speed Wax

- Easy to use, nano-formula wax
- Fast gloss and protection
- Leaves no white residue

500ml

### Extreme Nano-Tech Tyre Gel

- Deep black shine and wet look finish
- Long lasting, advanced silicones penetrate the surface
- Controlled application

500ml

### Extreme Nano-Tech Wheel Clean

- Fast acting nano-tech formula
- Won't harm tyres or plastic trims/decals
- Enhanced cleaning performance

500ml

### Extreme Nano-Tech Polishing Wax

- A blend of superior waxes for maximum cleaning and protection
- Uses ultra fine powders to remove fine scratches and swirl marks
- Nano-technology bonds synthetic polymers at molecular level, producing an incredible glossy and durable finish
- Long lasting, deep shine

500ml
